

# 3614-08R

## Reversible Jaw Adjustable Wrench

- Chrome vanadium alloy steel
- Dual function wide jaws can be used as an adjustable wrench or pipe wrench.
- On one side, the jaw is flat for traditional usage to avoid damaging the parts.
- On the other side, the jaw is finely serrated for powerful tightening on tubes and other parts requiring strong grip and high torque.
- Super wide jaw opening, 50% wider than regular adjustable wrenches
- Deep throat, 30% longer jaws than traditional adjustable wrenches
- Screw pin with front side metric or SAE scale 15°, perfectly matched knurl and teeth of jaw for smooth running
- TPR handle with end hole button
