

9TYP8421

Wheel Balancer

- High mechanical principal axis perform the heat treatment processability to make sure the precision of repeated measure
- High accurate and high stable integrated circuit, self-calibration and diagnosis functions
- LED number display screen
- Max Wheel weight: 65 kg
- Rim width: 1.5~2.0"
- Rim diameter: 10~24"

Item	Input voltage	Balancing speed	Balancing accuracy	Measuring time	N.W. (Kg)	G.W. (Kg)	Cuft
9TYP8421AA-B	220V 50/60Hz	200 r.p.m	±1g	8 s	76.5	95.5	28.96
