

- 
- Material: PA plastic + Rubber housing, PC lens
  - Magnetic 360° swivel base and 180° function hook
  - Rechargeable battery: 3.7V 2600mAh Li-ion
  - 5 leds battery level and charging indicator
  - Charging time: 4 hours
- LED indicator
- USB port
- Top light
- Main light
- 360° magnetic base + function hook

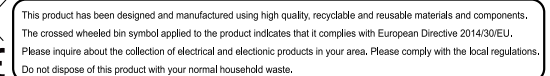

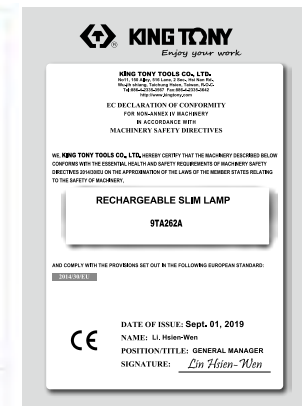

- Matériaux : Corps en PA et caoutchouc, lentille en polycarbonate
  - Base magnétique inclinable à 360° et crochet pivotant à 180°
  - Batterie Li-Ion rechargeable : 3.7V 2600mAh
  - Niveau de batterie et de charge indiqué par 5 LEDs
  - Temps de charge : 4 heures
- 
- The diagram shows a blue flashlight with several callout boxes and lines pointing to specific features:
- Main light**: Points to the main lens at the front of the flashlight.
  - Indicateur à LED**: Points to a small window on the side of the handle.
  - Port USB**: Points to a USB port located on the side of the handle.
  - Lumière secondaire**: Points to a small secondary light source on the side of the handle.
  - Lumière principale**: Points to the main light source at the front of the flashlight.
  - Base magnétique inclinable à 360° et crochet pivotant à 180°**: Points to the magnetic base and the hook at the bottom of the flashlight.

- Materiaal : PA Plastiek + rubberen behuizing
  - 360° draaibare magnetische voet + 180° draaibare ophanghaak
  - Herlaadbare batterij : 3.7v 2600mAh Li-ion
  - 5 Led batterijcapaciteit + laadindicator
  - Laadtijd : 4 uur
- 
- The diagram illustrates the features of a blue LED night light. A central image shows the device with a black top and a blue body. Red lines connect callout boxes to specific parts:
  - Hoofdlucht**: Points to the main light source at the top.
  - Batterijcapaciteit**: Points to the battery compartment on the side.
  - Top light**: Points to a small light on the top surface.
  - USB Poort**: Points to the USB charging port on the side.
  - Hoofdlucht**: Points to the main light source at the bottom.
  - 360° magnetische voet + ophanghaak**: Points to the magnetic base and hanging hook at the bottom.
 Inset images provide close-ups:
  - A top view of the black top section showing the 'Top light'.
  - A close-up of the battery compartment with a small sun icon indicating light emission.
  - A close-up of the magnetic base and hanging hook mechanism.

- 
- PC/PA Gehäuse
- Drehbare Magnetbasis um 360° + versenkbarer Haken, um 180° drehbar
  - Aufladbarer Li-ion Akku 3.7V-2600mAh
  - 5 LED zeigen den Ladezustand der Batterie an
  - Ladezeit: 4 Stunden
- (ou Haupt-Leuchte selon la place)
- LED Anzeige
- LED im Lampenkopf
- USB Port
- Hauptleuchte
- 360° Magnetbasis + Funktions-Haken

Please wear proper safety gear while working.
