

9DC51

Vehicle Battery Tester

- Digital Display Vehicle Battery Tester
- Test a 12V lead-acid battery of any vehicle
- CCA testing(SAE/DIN/EN/IEC/CA standard)
-Working voltage: DC 9~15V
- Engine starting voltage test
-Measures the minimum voltage when the engine starts
- Charging voltage test
-About 14 volts
- CCA Level bar indication
-LOW / MID / HIGH
- LCD with background light

Item	Test range (V)	Size(mm) L x W x H		
9DC51	9 ~ 15	135 x 78 x 33	374	1 / 36
