

9CJ7416

16mm Carbide Scraper

— The blade tip is made of tungsten carbide material, which offers high hardness and a long lifespan. Available in 16mm width.

— It can be used to scrape off residual carbon deposits, rust marks, or silicone residue from surfaces of objects, such as old silicone on oil sumps, exhaust manifolds, or brake calipers.

— The blade tip is equipped with a protective cover, and the rear end has a hanging hole.

Scrape off glue.

Scrape off rust.

The blade tip has been finely ground on all four sides, allowing for both pushing and pulling motions.

Designed with ergonomic handle to conform to human ergonomics, providing a comfortable grip.
