

39104M

Adjustable tap socket Set

- Designed for the assembly and removal of brake caliper screw connections on commercial vehicles
- Compatible with 1/4", 3/8", and 1/2" Drive tools; can be used with torque wrenches for precise tightening operations
- Features an adjustable tap handle with a chuck range of M3–M27, enabling quick tap changes, enhancing efficiency for taps, reamers, and screw extractors.
- Ideal for accurate tapping and threading in confined spaces
